1% White Milk
No High Fructose Corn Syrup

JUST WHAT THE DOCTOR ORDERED.

Experts urge that we eat 5-9 servings of fruits and vegetables every day – and a growing number of American doctors are putting that advice in writing by actually prescribing fruits and vegetables for their patients.

EAT BETTER. PLAY HARDER. LIVE HEALTHIER. LEARN EASIER.
WELLNESS IS A WAY OF LIFE!

What food isn't so nutty after all?

Nuts and seeds are an incredible snack, full of protein, fiber, and great taste! But one popular treat that you might think belongs with the nuts on this list isn't really a nut at all. To discover the answer, find and color all of the letters in each word on the list, and then unscramble the leftover letters to learn the name of the nutty food that's not really a nut!

Walnut Pecan Almond
Chestnut Sunflower Seeds

ANSWER:

These "nuts" are actually a "legume" or type of bean. They contain more protein than true nuts, plus lots of vitamins, minerals, and fiber. So whatever you call them, go ahead and go nuts!

OUR NATION'S HISTORY

Yellowstone National Park Service turns 100 years old. Two years later, Yellowstone became our first official national park when the Army turned management of the park over to the new National Park Service in October 1918. The poster to the right is an ad from the 1920's for railroad trips to Yellowstone to see the new park's amazing geysers and plentiful wildlife. In 2015, over 4 million people visited Yellowstone and, for the first time, visitors to all 400+ Park Service sites topped 300 million!

WITH LIBERTY & JUSTICE FOR ALL
