Mr. Knighton went over Training Module 7: Student Assessment Program & School Calendar Development and Module 8: School Operations.

Mr. Knighton discussed our school coming off the state CSI list. He mentioned the Science of Reading professional learning that our Pre-K through 5th grade teachers are doing according to state law. He discussed the grant we have to do our PLC work and to have our consultant, Robert Mountjoy work with us. He discussed the Title 1 budget and the carry over money that we are budgeting for. We will use this money to replace chromebooks, books for the library and Science of Reading materials. Our main focus right now is our 3rd 9 weeks 45 day action plan. Our leadership team monitors these action steps every 2 weeks. Members of the leadership team have done walkthroughs to look for the opening of lessons. In February we will be monitoring collaborative planning. We are beginning the Cognia accreditation process with walkthroughs to look for student engagement. We discussed our upcoming parent night on February 29, 2024.

We discussed the Mission statement that will be taken to the staff and leadership team for final approval. This LSGT approved our mission statement.

Mrs. Richey adjourned the meeting at 1:03.

Next meeting is February 27. 2024.
